Portfolio: [Srujan N | Full Stack Developer Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer specialising in MERN Stack development with hands-on experience building scalable web and mobile applications using React.js, React Native, Node.js, Express.js, and MongoDB. Skilled in REST APIs, JWT authentication, role-based access control, database design, and Agile development.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, PHP

Database: MongoDB, MySQL

Frameworks: React.js, Express.js, Node.js, React Native, Next.js

EXPERIENCE

Software Developer Intern | Codelab, Mangalore

Feb 2026 – May 2026

- Built and deployed production-grade web and mobile applications using MongoDB, Express.js, React.js, Node.js, and React Native.
- Engineered JWT-based authentication with role-based access control and **RESTful API** endpoints for secure multi-user workflows.
- Optimized MongoDB schemas and reduced redundant query logic for better scalability and maintainability.
- Built and **delivered 20+ custom PHP applications**, providing technical solutions and support for academic projects.

PROJECTS

PigmyCollection – Pigmy Savings Collection System

github.com/Srujan07N/PigmyCollection

- Built a multi-role pigmy/daily savings collection platform with dedicated portals for Admin, Collector, Client, and User management.
- Implemented JWT authentication and role-based access control across all portals for secure, isolated workflows.
- Designed MongoDB schemas for managing collection records, member accounts, and transaction histories using Node.js and Express.js.
- Developed RESTful APIs for CRUD operations on collections, members, and daily deposits with real-time data consistency.

PowerPlate – Personalized Meal & Diet Management System

github.com/Srujan07N/powerplate

- Developed a full-stack multi-role diet management platform connecting clients with certified nutritionists via a React-based frontend and Node.js backend.
- Built role-specific dashboards for Admin, Nutritionist, and Client with features including consultancy requests, personalized meal plan generation, and progress tracking.
- Integrated a simulated payment flow managed through the Admin panel for meal plan subscriptions.

EDUCATION

Master of Computer Applications (MCA)

Shree Devi Institute of Technology | GPA: 8.6/10 | Nov 2024 – May 2026

CERTIFICATION

Software Developer Intern | Codelab, Mangalore

Feb 2026 – May 2026
